
CONTENTS

Warnings and Cautionary Statements.....	2
The Bock Story.....	3
Comparisons of Fuel Prices and Operating Costs.....	5
Estimated Annual Cost of Operation; Oil-Fired Units.....	6
Estimated Annual Cost of Operation; Gas Units and Electrical Units.....	7
General Information.....	8
Oil-Fired Water Heater Installation, Pipe Sizes, Alternatives	9
Piping Fuel Lines for Bock Oil-fired Water Heaters	11
Gas-Fired Water Heater Installation	13
Indirect Water Heater Installation	14
Sizing:	
General Sizing Formula, Sizing for BTUH Input	16
Indirect Water Heater Applications.....	16
Multiple Dwelling Buildings.....	17
Expansion Tank Sizing	18
Hair Salons, Barber Shops, Car Washes, Places of Worship, Schools	19
Industrial Plants, Dairy Barns, Care Centers, Dorms, Office Buildings, Clubs	21
Hot Water Requirements for Fixtures and Machines	22
Shower Head Availability	23
Food Service Establishments	24
Machine Dishwasher Requirements	25
Self-Service and Commercial Laundries, Swimming Pools, Hot Tubs, Baptistries.....	28
Venting:	
Venting the Water Heater, Types of Venting, Individual Vents	30
The Common Vent.....	31
Combustion/Ventilation Air, Balanced Combustion System, Insufficient or Excessive Draft	32
Barometric Draft Controls, Power Vent Selection – Tjernlund Products	33
Power Vent Selection – Field Controls, Draft Inducer	34
Installation and Hookups:	
Specialized Installation Hookups.....	35
Indirect Installation.....	36
System Plus Installation.....	38
Radiant Heating	39
Combined Appliance Sizing	40
Multiple Hookups: Parallel, Series, Isolating, Reverse Storage Tank.....	40
Isolating Series, Reverse Storage Tank System Hookups.....	42
Weights, Measures, Metric Conversions	44
Tables:	
Vent Tables.....	45
Indirect, Oil, Gas Performance Tables	57
Measuring Combustion Efficiency Using Oxygen (O ₂).....	76
Glossary of Terms	77
