

## Condensate Neutralizer Kits (Outdoor Unit)

**Ideal for neutralizing condensate from condensing water heaters operating on natural gas or propane.**

*The condensate is acidic and has the potential to harm the environment and the sewer system. The Condensate Neutralizer Kit will raise the pH of the condensate to a more neutral level before it is discharged to drain.*

- Kit for OptiTherm Outdoor Models 125-200,000 BTU (Stock No. 57010)
- Separate Kit for OptiTherm Outdoor Models 250-500,000 BTU (Stock No. 57015)
- Prevents acidic condensate from corroding drains and sewer systems
- Neutralized condensate is more environmentally friendly
- Fast and easy installation
- Helps maintain a neutral environment for bacteria in septic systems
- Low profile design for appliances with a near floor condensate drain
- All corrosion resistant materials
- Suitable for use on all types of natural gas and propane appliances
- Includes initial charge of neutralizing agent
